Dinner and free parking will be provided

# EVENT RUNDOWN

## 1. Introduction

Opening Remarks by IEEE UBCO President (Aziz Rakhimov), Industry Representative (Emily Varga who works at BC Hydro and is a UBCO Alumni), and Faculty Representative (Dr. Holzman SoE Professor).

## 2. "5 Minutes Pitch"

Through criteria-based selection, 12 of the most hardworking and advanced engineering & computer science teams within UBCO will be selected.

Each of them will have 5 minutes to present their projects to employers, recruiters and potential investors.

This component will set the tone for the event by making attendees more familiar with the student body. This would make them more comfortable approaching students during the next component of the event.

## 3. Networking Bingo

During this part of the event, all attendees will socialize and network. It will be a traditional old-fashioned networking style.

## 4. Closing Remarks
